Elements.

Your portal comes with an executive summary of your business, an inbox for important documents and relevant market insights.

In concrete this means

- A Management Summary
- A Reporting Dashboard
- Documents
- Market Insights (global network)
- Market News (global media)

About Allianz Global Benefits (AGB).

AGB is specialized in implementing local employee benefits products, insurance solutions and services into global programs. The headquarters of the network is based in Germany and operates a strong global network of more than 110 Allianz subsidiaries and selected external insurance partners in over 90 countries. Leveraging on the geographical scale, the expertise and the customer centricity of its network partners, AGB addresses the needs of multinational companies of managing employee benefits globally.

Data driven culture.

Our solutions are data driven and provide you quality insights and reporting, so that you can easily keep track on the development of your employee benefits strategy.

EMPLOYEE BENEFITS PORTAL

Your EB journey is individualized according to different user roles, aligned with your feedback and continuously improved according your requirements. It contains comprehensive sections on financials and health, the core of the report being a global overview.

Reporting Dashboard

A reporting dashboard is seamlessly integrated with the portal and users are provided with customized access and the possibility to download the summary reports as pdf-file. In addition, they can download the underlying data behind each graph and table that is shown in the dashboard in the .xlsx format as well as the picture of the graphs and tables in the .png format to further use them in presentations.

Geographical Markets

The reporting dashboard of the portal highlights relevant insights and allows clients to explore the performance of their employee benefits programs in each country. This includes health reports for each client subsidiary and country health reports for each country covered in the global program. Depending on the roles of the users, there is the additional possibility to explore the employee benefits programs by self-defined regions. The availability of these features may vary between markets, depending on the existence of ICD-10 reporting and/or if the group size is compliant with GDPR.

Insight Focus Reporting

MyAGB is set up to offer users predictive analytic capabilities through global heatmapping with the aim to analyze and interpret the information stored in the portal and hence foster detailed local discussions and action to improve performance, react to inflation trends and contain costs.
