

EMPLOYEE BENEFITS

Global Pension

Coordination of the local delivery of pension solutions.

Defined Contribution (DC) Plans

Ability and experience in setting up local DC pension market compliant solutions.

Defined Benefits (DB) Plans

Ability and experience in supporting the externalization of DB liabilities in various countries.

Cross-border Solution

Ability and experience in supporting cross-border pension solutions in Europe.

Expats Solution

Ability to set up pension plans for expatriate and mobile employees.

How we run our global pension network for multinational corporations:

One global cockpit

for international (global and local) pension activities.

End-to-end support on local level

by partnering with headquarters or regional functions.

Additional ad-hoc support

for governance and steering (delivery of regular reporting of local pension plans).

Our pension solutions are based on 3 features:

- Adequacy
- Sustainability
- Integrity

AGB Pension Network Capabilities

Support of multinational corporations from concept to implementation and reporting in 50+ countries.
